

FOUR WAYS TO REDUCE SINGLE USE PLASTICS

1

About 500 bags could be saved over the average lifecycle of one mesh bag or tote

SHOPPING BAGS → MESH BAGS OR TOTES

2

In Canada, we consume two billion water bottles each year, which is equal to 5.3 million a day

WATER BOTTLE → FLASK OR SPORT BOTTLE

3

3 Ziploc bags a week over 5 years (780) is equal to the average lifespan of a glass or reusable container

ZIPLOC BAGS → GLASS OR REUSABLE CONTAINERS

4

57 million plastic straws are used everyday in Canada. A plastic straw used once daily over 5 years is equal to 1,825 straws

PLASTIC STRAW → STAINLESS STEEL OR OTHER REUSABLE STRAW
